
POL-IP-2025: Campus Intellectual Property & Hackathon Project Ownership Code

Authority: Institutional Research & Innovation Council (IRIC) | Effective: January 1, 2025

Clause 8.1 - Student Ownership of Hackathon Creations

All source code, software prototypes, designs, algorithms, and intellectual property conceived and created solely by students during hackathons, workshops, or extracurricular innovation challenges belong 100% to the student team members.

Clause 8.2 - Sponsor and Organizer License Restrictions

Event sponsors and host colleges may retain non-exclusive rights to showcase, demonstrate, and archive project submissions for evaluation and promotional purposes, but acquire no equity, proprietary license, or patent rights without explicit written student consent.

Clause 8.3 - Open Source and Foundation Model Attribution

Student projects utilizing third-party open-source libraries or hosted foundation model APIs (e.g. Databricks DBRX, OpenAI, Anthropic, HuggingFace) must maintain proper licensing attribution and declare dependencies in the project repository.
